## Words to Know

|            |               |
|------------|---------------|
| flippers   | flip • pers   |
| climates   | cli • mates   |
| rivers     | riv • ers     |
| themselves | them • selves |
| lions      | li • ons      |
| circus     | cir • cus     |

Seals are large sea mammals. Seals have flippers, not feet. Seals spend lots of time in the sea. Some stay on shore. Some go up rivers. Some live in lakes.

Many seals live in cold climates. Other seals live in warm climates. You can see seals swimming in the oceans. You can see them sunning themselves on rocky islands. You can see seals sitting on ice.

You will not see them at a circus, but you can see sea lions. Seals look a lot like sea lions.

-
